The NSG was raised in 1984 as a Federal Contingency Force with primary mandate to undertake specific anti-terrorist and anti-hijack operations. The history of NSG is replete with glorious instances of successful anti-terrorist operations conducted with professional elan and competence, which does not need reiteration here. Over the years, the NSG has also developed cutting edge Post Blast Operation and Analysis (PBOA) expertise. The Close Protection Force of NSG compares with the best in the business. The NSG also provides Immediate Backup Support to all important national and international events. The NSG Training Centre is a centre of excellence and has been instrumental in capacity building of other police forces, including those from friendly foreign countries.

In recent times, the NSG has developed niche capability in anti-drone operations and also upgraded its night fighting capability. The NSG has also developed its own Dual purpose K9 squad, wherein the K9s perform both assault and IED detection functions. The Officers and Men of NSG, a unique amalgam of the best from the army, the para-military and the police forces, are ever ready for service to the nation with utmost commitment and dedication.

M A Ganapathy, IPS
Director General
National Security Guard
